Administration

Goals

1. Provide a responsive, efficient municipal government for the residents of Coal City.

2. Inform the Coal City residents of the decisions and measures taken by the Board of Trustees to lead the appointed officials and employees to provide services for the Village.

3. Implement the Strategic Plan in order to provide priority and guide the decision of each Committee and Board towards bringing Coal City towards a future vision.

4. Determine the best means of facilitating services for Coal City residents through the sharing of service provision and cooperating with other governmental entities and service providers to lower the overall cost of governance.

5. Lead in a manner compliant with state and local statutes, which may be a source of pride for each Coaler.

Program Overview

The Village of Coal City operates with a President-Trustee style of government and carries its policies out utilizing a Village Administrator to lead the municipal organization according to the policies and directions of the Board set within the Strategic Plan, Annual Budget, and updates with Board actions including Resolutions and Ordinances. The Administration portion of the Village's Budget includes the functions of the Mayor and Board of Trustees, Village Clerk, Treasurer, Village Administrator, and Village Attorney. This administrative capacity provides support for 22 funds, 25 programs, and 4 departments within municipal operations. One of the most important functions includes preparing the annual budget, which provides a manual for the operations of the municipal organization for May 1st through April 30th of each year. The FY14 budget will be in effect on May 1, 2013 and govern policy until April 30, 2014.

This past year's notable accomplishments included some successful work with other governmental entities. The Village relationship with the North Central Council of Governments (NCICG) assisted with the reception of \$1,459,844 in grants to further the Village's efforts on mitigating the storm water problems that persisted during the storms of September, 2008. NCICG also assisted the Village with its effort to receive a \$350,000 maximum match towards the sanitary connection project with Prairie Oaks subdivision.

The Village's efforts to work with surrounding subdivisions and neighbors will continue to be stressed in the upcoming year. Many of the economic development efforts have already received marketing by the Grundy Economic Development Council (GEDC) and there will be an effort to involve local existing businesses through greater utilization of the Grundy Chamber of Commerce resources. Last year, the Village Board adopted a Façade Improvement Program, which led to a construction project at Spivey's Saloon.

ADMINISTRATION

Work over the next year should include a look at the Village's Comprehensive Plan adopted in 2007 and a mid-term review of the Strategic Plan that was adopted in 2009. During review of these documents consideration of the facility planning areas of the village to align with its recent annexations. Economic development is expected to require additional focus due to Coal City's competitive advantage spurring on commercial development. Work shall continue to expand the Village's tax base and jobs availability with the location of commercial and industrial properties.

Village of Coal City FY14 Final Budget

ADMINISTRATION NARRATIVE

Project & Detail

Budgetary Effect

Other Professional Services: Last year the Village underwent a Police feasibility study causing an increase within this line item. The amount maintained within this line item will be utilized to maintain the village's contract with Gallagher Bassett for Safety and Risk Management services. Besides these services, the village utilizes contract information technology consultants for the maintenance of its network.

Professional Services Decrease

\$44,250

Bank Service Charges: The Village holds its operational accounts locally. Formerly, the village was not charged service fees unless it received bounced checks or for similar reasons. Utilizing the bank's money management staff, the Village qualifies to pay bank fees on some of its accounts, but the amount of interest exceeds the fees charged.

Service Charges Increase

\$1,500

Liability & Workers' Comp. Insurance Coverage: The Village is currently holding claims against its coverages; due to these claims and recent history, there is an increase for this necessary coverage. Usually, it will take three years to clear the experience of current pending claims. This line item is expected to increase for until FY16. This line item pays for insurance across all divisions and functions of the Village including police department and public works operations.

General Insurance Increase

\$19,165

Computer Supplies: Administration computers are undergoing an upgrade in order to get all of the computers on the same Windows 7 operating system. This has already take place across 3 of the Village Hall computers and needs to be conducted in the remaining units.

Computer Supplies Increase

\$3,000
